

NO!NO!NO!NO! to relaxing the rules on broadcast ownership. A resounding and absolute NO!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! Corporate media has already taken over vast swaths of the media domain. Their march towards hegemony of our news and information venues must be stopped now! I am OUTRAGED that you are even considering such a policy change. We need to turn back, way back, the amount of power that corporations have in our media domain, not invite more monopolization of media power. NO! I STRONGLY urge the FCC to reject the proposed broadcast ownership changes. Thank you for soliciting my comment. However, I only found out about this through an ad in the Seattle Times. You MUST do a much better job in letting the American public know that they have the right and an opportunity to comment on your proposals, and not make it such an obscure and unknown phenomenon. If you want our feedback - then let us know - publicize this feedback opportunity broadly and then you will truly be able to gauge the sentiment of the American people.
